SUBJECT: Agent's Pay

TO : Mr. Richard Moore, SI/London

1. [redacted] was in to see us the first of the week to say that his chances of getting to England now look pretty slim. He therefore makes the request that we have the money due him paid to his fiancée in Swedish money. She is [redacted] living at [redacted] Stockholm.

2. Inclosed is a letter for Kees. Will you please have it mailed in London?

3. Still no news of the bicycle tires, though we have continued to follow up every clue. Have you heard anything more about them? There was a rumor making the rounds in Brussels among the British that a certain American Captain Jax was importing bicycle tires under the guise of crockery and selling the tires in the black market in Holland. I tried again to run the thing down in Brussels, but to no avail. Were you able to trace the shipment from your end?
